The GOG has the objective to provide improved health care for women afflicted with gynecologic malignancies. For the educational objectives, we list the following:

1. To inform the participants at the semi-annual business meetings as to the most current state of clinical and basic research in gynecologic oncology, particularly, but not exclusively as it relates to clinical field trials by:
   - Progress reports of recent completed GOG studies, cancer center activities, work of other groups and efforts of individual investigators.
   - Status update of current trials, whether a group or non-group in origin.
   - Projections of future clinical programs to diagnose, treat and/or prevent cancer.

2. To provide participants with peer review critique of progress (or lack of it) with the objective of self-improvement
   - Identify strengths and weakness of individual investigators and their institutions.
   - Counsel investigators in corrective procedures to obtain better research and better reported data.
   - Set up detailed programs for quality and productivity from a basic foundation of education of the investigator in research objectives and procedures.

3. To provide an opportunity to learn research administration and financial management in a cooperative group setting.

4. To provide a lecture type forum of reports from experts from many fields that may relate to better research or patient management.

**The Deadline for Hotel Reservations is:**
**Monday, December 13, 2004**

The Manchester Grand Hyatt will sell out quickly so reservations should be made promptly by the “cut-off date” to secure rooms.

**IMPORTANT – PLEASE READ CAREFULLY**
Please try to refrain from making hotel reservations and then canceling after the cut-off date. When this situation occurs, the hotel room block becomes full and GOG registrants who are more definite about attending the meeting may have problems reserving rooms. The hotel does not give the rooms back to GOG if you cancel after the cut-off date. Therefore, we lose the rooms and GOG registrants who definitely plan to attend the meeting are forced to other hotels.
